UPR Outcome – Marshall Islands

Thank you, Madam President.

Israel takes this opportunity to warmly welcome the Marshall Islands again and commend it on the adoption of its UPR report.

Israel wants to once again acknowledge the many challenges faced by the Marshall Islands as a consequence of climate change. In that context, Israel would like to congratulate the Marshall Islands for their work done in the context of gender-based violence, women participation and discrimination based on disability.

Israel presented three recommendations for Marshall Island's consideration and we are pleased that two of our recommendations were accepted. We invite Marshall Islands to consider implementing the third one as well.

We look forward to continue our close cooperation with Marshall Islands and hearing the advances it has achieved. We wish them all the best in the implementation of the recommendations.

Thank you, Madam President.
