MASHAV International Agricultural
Training Center

**MASHAV - Israel's Agency for International
Development Cooperation**

together with

MATC – MASHAV Agricultural Training Center

invite English-speaking professionals to participate in the

International Course on

Dairy Production in a Low-carbon Future

17.7 – 3.8.2023

Shefayim, Israel

Background

The productivity of the Israeli dairy herd is among the highest in the world, despite Israel's adverse climatic conditions. This is the result of a joint effort of the actors responsible for the development of the sector and the constant adoption of innovative systems and technologies.

The Israeli dairy sector, which is managed 100% under stall systems, stands out as an intensive and efficient system that integrates: a national breeding program based on the creation of a comprehensive herd database, a very precise feeding management, climate control to reduce heat stress, a comprehensive health programs and the implementation of innovative technologies

Israel's successful dairy industry is constantly upgrading technologies in order to respond to fast changing conditions and to bring to market a wide and varied range of high quality dairy products.

Two decades ago, the sector has completed a nationwide reform, aimed at reducing the environmental impact of dairy farms, promoting efficient waste management and ensuring the sustainability of milk production.

About the program

Aims

The training program aims to share with participants Israel's acquired experience in structure and organization of the dairy sector in Israel; policies and strategies that drive their development; management of intensive production systems; supporting institutions and applied technologies.

The course will also serve as a platform for discussing the application of the latest methods and technologies in the unique conditions of each participating countries.

2. **MASHAV'S Medical insurance** covers only medical services and hospitalization in case of emergency. It does not cover the treatment of chronic or existing conditions, specific medications taken by the participant on a regular basis, dental care and eyeglasses. Participants will be responsible for all other expenses, which are not covered by the insurance policy. Israeli Health authorities recommend that all visitors to Israel make sure they **have been vaccinated against tetanus in the last ten years**.

About MASHAV

MASHAV – Israel's Agency for International Development Cooperation is dedicated to providing developing countries with the best of Israel's experience in development and planning. As a member of the family of nations, The State of Israel is committed to fulfilling its responsibility to contribute to the fight against poverty and to the global efforts to achieve sustainable development. **MASHAV**, representing Israel and its people, focuses its efforts on capacity building, sharing relevant expertise accumulated during Israel's own development experience to empower governments, communities and individuals to improve their own lives. **MASHAV's** approach is to ensure social, economic and environmental sustainable development, and is taking active part in the international community's process of shaping the Post-2015 Agenda, to define the new set of the global Sustainable Development Goals (SDG).

MASHAV's activities focus primarily on areas in which Israel has a competitive advantage, including agriculture and rural development; water resources management; entrepreneurship and innovation; community development; medicine and public health, empowerment of women and education. Professional programs are based on a "train the trainers" approach to institutional and human capacity building, and are conducted both in Israel and abroad. Project development is supported by the seconding of short and long-term experts, as well as on-site interventions.

Since its establishment, **MASHAV** has promoted the centrality of human resource enrichment and institutional capacity building in the development process – an approach that has attained global consensus.

About MATC

MATC - MASHAV's International Agricultural Training Center - specializes since 1963 in human capacity building and training programs in the fields of agriculture, water management, environment and rural development. **MATC** conducts international, regional and country tailor made training programs as well as professional visits, workshops and conferences based on Israel's development experience, sharing both agricultural know-how, and Israel's unique spirit of innovation. MATC's training programs conducted in English, Spanish, French, Russian and Arabic, are specifically designed to improve agricultural production in developing countries, to promote food security and to create partnerships through ongoing international cooperation, for enhancing global sustainable development. To this purpose, **MATC** works in close cooperation with Israel's Ministry of Agriculture and Rural Development and its Agricultural Research Organization (ARO), as well as with Israel's universities, agricultural organizations, farmers and the private sector.
