Marsh Dondurma - Neighborhood – International Release

"Dondurma sounds exactly like love to music" - Ma'ariv

"When they lock onto a groove the outcome is irresistible"

- All about jazz

Marsh Dondurma is a blazing hot Jerusalem based 15 member brass band. Formed just over six years ago, they've been hitting the streets ever since, growing with a new luscious sound. It's Boban Markovic and the Dirty dozen joining a Marrocan Hafla in downtown Ben Yehuda market and Everybody's invited.

And they've been keeping it busy. With 2 studio albums and the 3rd coming out now, they've toured the world playing festivals such as *the Montreal Jazz Festival (Canada)*, the *Guca Trumpet Festival (Serbia)*, the *Red Sea Jazz Festival (Israel)* and performed in New York, Croatia and even China. They perform regularly around Israel and have cooperated in concerts and recordings with Israeli artists Beri Saharof, Shlomo Gronich, Eviatar Banai and also with New York's Klezmer legend Frank London. This March catches the band amidst a new adventure – as they head out to tour Moscow and Saint Petersburg.

Neighborhood – Marsh Dondurma's 3rd album brings the band's ever so energetic sound to new heights truly defining the band. It's a geographical map of brass, groove and Middle Eastern tradition.

We present you with the concert that will accompany the album's release; with new songs just out of the rehearsal room, milestones from previous albums and of course music from the new release.
