Ovogodišnji sajmovi i konferencije u Izraelu nude brojne prilike za uspostavljanje poslovne suradnje sa Hrvatskom. Jedan od najznačajnijih svjetskih sajmova u obnovljivoj energiji je upravo Eilat-Eilat koji će se održati od 27-29. studenoga ove godine. Konferencija uključuje prezentacije, diskusije, posjete tvrtkama, te će se ove godine fokusirati na teme kao što su energetska učinkovitost, solari, prirodni plin, vjetroelektrane i bio plin. Eilat-Eilat je savršena prilika da upoznate potencijalne poslovne partnere iz cijeloga svijeta. <http://www.eilatenergy.org/> / This year's fairs and conferences in Israel are offering numerous opportunities for establishment of cooperation with Croatia. One of the most prominent is the renewable energy conference and exhibition that shall be held in from 27th till 29th November this year. The program will include a variety of presentations, interactive discussions, side events and field trips dealing with topics such as oil alternatives, smart grid, energy efficiency, EV, solar, wind and biogas as well as the required interaction with bridge energy sources such as natural gas. Eilat-Eilat is the perfect opportunity to meet your potential business partner from around the world. <http://www.eilatenergy.org/>

ŠTO NISTE ZNALI O IZRAELU/WHAT YOU DID NOT KNOW ABOUT ISRAEL

IZRAELSKI IZUMI SVIH VREMENA/ ISRAEL'S INVENTIONS OF ALL TIME

1. **Given Imaging** - invention of PillCam, solution for visualizing and detecting disorders of the GI tract.
2. **Netafim** - world's pioneer in smart drip and micro-irrigation starting from the idea of Israeli engineer Simcha Blass for invention of drip-by-drip irrigation system.
3. **Ormat Technologies** - designs, develops, builds and manufactures geothermal power plants worldwide supplying clean geothermal power.
4. **Pythagoras Solar** - made the world's first solar window which combines energy efficiency, power generation and transparency.
5. **Hazera Genetics** - project of two professors from the Hebrew Faculty of Agriculture who invented **cherry tomato**.
6. **BabySense** - non-touch, no-radiation device designed to prevent crib death.
7. **EpiLady** - first electric hair remover.
8. **MobileEye** - combines a tiny digital camera with sophisticated algorithms to help drivers navigate more safely.
9. **Leviathan Energy** - innovated the Wind Tulip, a cost effective, silent, vibration free wind turbine.
10. **3G Solar** - pioneered a low cost alternative to silicon that generates significantly more electricity at a lower cost per kilowatt hour.
11. **Rav Bariach** - **steel security door**. Its geometric lock, whose cylinders extend from different point into the doorframe is incorporated into doors selling on 5 continents.
12. **Better Place** electric car network - Israeli Shai Agassi's brainchild, is implementing the Israeli pilot that will provide a model for a worldwide electric car grid.
13. **Intel Israel** - changed the face of the computing world with the 8088 processor (the "brain" of the first PC), MMX and Centrino mobile technology.
14. **Disk-on-key**, a little portable storage device made by **SanDisk**. It is invented by Dov Moran through the use of flash memory and USB interface for connection to personal computers.
15. **TACount** - real time microbiology that enables the detection and counting of harmful microorganisms in matter of minutes. The technology applies to drinking and waste water, pharmaceuticals as well as food and beverage production.
16. **Solaris Synergy** - innovated way to float solar panels on water instead of taking up valuable land, generating energy while protecting and limiting evaporation from reservoir surfaces.
17. **HydroSpin** - unique internal pipe generator that supplies electricity for water monitoring and control systems in remote areas without accessibility to electricity.
18. **EarlySense** - monitoring solution that allows hospital nurses to watch and record patients heart rate, respiration and movement remotely through a contact-free sensor under the mattress.
19. **PrimeSense** - revolutionized interaction with digital devices by allowing them to "see" in three dimensions and transfer control from remote controls and joysticks to hands and body.
20. Hewlett Packard's **Indigo digital printing presses** for general printing, direct mail, photos, publications, labels etc.
21. The Space Imagery Intelligence (IMINT) unit of **Elbit Systems** made a "space camera", a compact, lightweight electro-optic observation system.
22. **Zenith Solar** developed a modular, easily scalable high-concentration photovoltaic system (HCPV).and much more
