

**The Robert H. Smith Faculty
of Agriculture, Food & Environment**

The International School of Agricultural Sciences

In collaboration with the Jerusalem Institute's Milken Innovation Center

MASTER IN DEVELOPMENT PRACTICE

- ▶ Agro-Environmental Development Track (AED)
- ▶ Resource and Development Economics Track (RDE)

A unique program that explores market-based solutions to agricultural, environmental, economic and business challenges of sustainable development. It introduces scientific and technological best practices, and provides students with a finance toolkit to catalyze economic growth.

Through rigorous curriculum and field training, students develop programmatic, project-driven and market-based strategies; skills in agro-environmental business models; and project plans to bridge technological and economic gaps that limit economic growth.

Application deadline: August 1, 2018
Early bird registration: April 15, 2018

The program is aligned with UN Sustainable Development Goals and Climate Smart Agriculture Development, and is fully accredited by both the acclaimed Hebrew University of Jerusalem, and the Global MDP Association.
